CAREER OBJECTIVE

Results-driven **Backend Developer** with **3+ years of experience** in **Node.js, Nest.js, and microservices architecture**. Passionate about building **scalable, high-performance backend systems** and exploring **DevOps practices** to enhance deployment efficiency.

SKILLS

Node.js, Express.js, Nest.js, NoSQL Database — MongoDB, **SQL Database** — PostgreSQL | MySQL, **ORM / ODM, TypeScript, JavaScript, C++, HTML / CSS, RESTful APIs, Docker, Git / GitHub, DSA, AWS S3, WebSocket, Microservices Architecture, RabbitMQ**

PROFESSIONAL EXPERIENCE

TechnoGrowth Software Solutions Pvt. Ltd.,

01/2022 – present | PUNE, India

Software Developer

- Developed and maintained backend services for **multiple client projects**, including **Bajaj Finserv, Uniconnect**, and others, using **Node.js, Nest.js, Express.js, PostgreSQL and MongoDB**.
- Designed and optimized **RESTful APIs and microservices** for high-performance applications, ensuring scalability and reliability.
- Implemented **real-time communication** features and data management solutions for **call center applications**.
- Integrated **RabbitMQ and Docker** to enhance **asynchronous processing** and **service orchestration**.
- Optimized **MongoDB and PostgreSQL** queries to improve database efficiency and performance.
- Collaborated with **cross-functional teams** to deliver secure and efficient backend solutions tailored to client requirements.

Skills: Node.js, Nest.js, Express.js, RESTful APIs, MongoDB, PostgreSQL, Docker, Microservices, RabbitMQ

EDUCATION

Bachelor of Technology
